“ Sean began teaching me about the little boy that he was on October 3, 1967. He was that special child that we all here about. You know, that child that speaks a sound that you begin to recognize as his way of saying that he wanted a drink. Or the look and sound he makes when he's laughing! I can hear him now when we give him his favorite toys, the FisherPrice telephone or, just to look at himself, the mirror. Then there's the whimper in his voice, the tear in his eyes that say that he's sad.

We had Sean only a short time, but oh boy, what he taught us!

Well now there is all the other men and women that have his organs and anything the Gift of Life can use because Sean didn't want to die without giving something more to us. When you think about it, Sean can now walk, talk, and sing with the best of them!

PS

Sandy and Dean, my heart goes out to both of you. Your special son will remain in your hearts forever. You were the best parents Sean could have asked for. God bless you each and every day and may you find peace through Him.

I couldn't have said it better or more beautifully. He was a special child with special caretakers, but we cannot forget his special parents and sister. His memory lives on with all of us.

My cousins' kissed their beautiful Angel & lovingly felt Gods Angels gently take him on his amazing journey to heaven. Sean grew healthy & strong as God Welcomed him home. I can just imagine his sweet surprise seeing his beloved relatives that arrived before, standing with opened arms to embrace him. Enjoy God's gardens & listen to the whispers to you from those of us that love you here on earth. I love you Sean, Diana "Deedee" Dragomir Henshaw
